serve-over counters

Sections & Plan view

Key benefits

Efficient ventilated refrigeration system with optimised air curtain that guarantees a uniform temperature throughout the display with the lowest energy consumption.

Two models: Vertical Evaporator under the worktop (EV) and Horizontal Evaporator model (EH) both with rotating fan box, for easier cleaning and protection of the evaporator.

Available in three widths*: 105 cm, 115 cm and 125 cm.

Double-glazed end side panels and acrylic rear service doors for greater energy efficiency.

Robust and hygienic stainless steel construction.

Tiltable display tray.

4000K LED lighting for meat, which enhances the natural colour of the food without altering the colour of the surroundings.

Internal components easy to remove and clean. Magnetic access cover for the condensing unit, without screws.

Technical features

Refrigeration	Ventilated
Climatic Class	3M0 / 3M1**
Refrigerant	R290
Defrost	Automatic
Electrical supply	230V / 50Hz
Illumination	LED 4000K (meat)
System	Plug-in / Remote

Build

Frame	Stainless steel
Interior	Stainless steel
Décor	Painted or other on request
Glass	Flat (VPV), flat self-service (VPV-LS), tilted (VPI) and tilted self-service (VPI-LS)

Key business areas

Butcher Shops Charcuteries Supermarkets Take-away

Footnotes

*Some dimensions shown may not be available on certain models.

**Corners models, CEF90 and CEF45.

Do not install refrigerated models in environments at temperatures above 25 °C and relative humidity over 60%, unless specified. Position equipment away from heat sources such as radiators, heaters, AC units, etc... And never to direct sunlight.
